

Project 0 (1)

- Write a C program called "genesis"
 - Usage: `genesis [chapter] [verse]`
 - Prints the corresponding text in "genesis" of the Holy Bible for the given chapter and verse

```
$ genesis 1 1
[Genesis 1:1] In the beginning God created the heaven
and the earth.
$ genesis 1 99
Invalid chapter or verse.
```

- Use the file "genesis.txt" available from <http://atschool.eduweb.co.uk/SBS777/bible/text/genesis.txt>

Project 0 (2)

■ Goals

- Test whether you have an adequate C programming background
- Test whether you can set up a development environment on Linux by yourself

■ Submission

- Send your C source code to sse2030@csl.skku.edu
- Make sure to identify yourself in the source code (Student ID & name)
- Due: 11:59PM, Sep. 2 (Fri)
